

20+ Years of Excellence in Clinoptilolite Mining

For over two decades, Esen Zeolite has been at the forefront of mining and processing high-purity Clinoptilolite, a distinct natural zeolite, from the heart of Gördes, Turkey.

ESEN Zeolite

Our operations leverage a substantial 55 million ton reserve of top-quality Clinoptilolite, conveniently located 200 meters from our advanced production facilities.

Our site includes a 5,000m² indoor facility situated on a 12,000m² plot. We produce 3,000 tons of zeolite in eight different sizes monthly. Our commitment to quality is demonstrated through daily sieve and moisture tests, alongside stringent safety checks including four strong magnets and a metal sensor to ensure product excellence.

Unmatched Zeolite Purity

Our meticulous processing—from crushing and grinding to employing an advanced jet plus filter system—ensures the highest purity zeolite. We focus on producing not just zeolite, but the purest form possible.

Commitment to Sustainability and Innovation

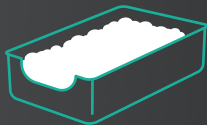

Our meticulous processing—from crushing and grinding to employing an advanced jet plus filter system—ensures the highest purity zeolite. We focus on producing not just zeolite, but the purest form possible.

Esen's Premium Zeolite Cat Litter

Why Esen's Zeolite Cat Litter

- ▶ **Odor Control:** The unique structure of Clinoptilolite Zeolite acts as a natural filter, capturing ammonia ions and neutralizing odors to keep your home fresh.
- ▶ **Absorption:** Esen's Zeolite quickly absorbs liquids due to its high surface area and ion exchange capacity, maintaining a dry and comfortable litter box.
- ▶ **Safe and Natural:** Our cat litter, made from pure Clinoptilolite, is non-toxic and free from chemicals. It's safe for cats of all ages and gentle on their paws.
- ▶ **Eco-Friendly:** Esen's Zeolite Cat Litter is sustainable and recyclable. Used litter can enrich soil as a fertilizer, supporting environmental health.
- ▶ **Cost-Effective:** With its exceptional efficiency and absorbency, our cat litter offers prolonged use, reducing both cost and hassle.
- ▶ **User-Friendly:** The dust-free formula of our cat litter minimizes tracking and simplifies litter box maintenance.

How to Use

Remove solid waste daily to keep the litter box fresh.

Fill the litter box with a 2-3 inch layer of Esen's Zeolite Cat Litter.

Replace the litter as needed to maintain cleanliness and odor control.
